

Limited Edition Print Pricing and Terms

“Grand Scale” images range from 23 to 35 feet wide, and up to 20 feet tall. They are sold as a “print license” (\$500,000 per set), allowing one full sized print to be produced. If the image needs to be moved, the print may be destroyed or sold in pieces for charity. The license would then permit the printing and installation of another image. Management and royalty fee, 25%. This fee is calculated on the costs to engineer, manufacture, install and illuminate the Grand Scale image. Demolition costs to remove an image are not charged the fee, however subsequent installations are charged this fee. Since the Print License is permanent, the fees are payable to Kevin G Saunders Photography Inc., or its successors.

“Public Scale” images range from 10 to 6.5 feet wide, and 4 feet tall. (\$200,000 per set.) This includes premium canvas printing, protective coating on canvas, museum grade gold leaf frames, 22kt gold leaf name plate, and 40 x 60-inch commemorative composite printed and framed like the other prints. This allows the purchaser to display “the story” in their lobby, independently of the actual prints.

“Private Scale” images are all 48 inches wide, and approximately 24 inches tall. (\$60,000 per set.) This includes premium canvas printing, protective coating on canvas, museum grade gold leaf frames, 22kt gold leaf name plate, and 40 x 60-inch commemorative composite printed and framed like the other prints. This allows the purchaser to display “the story” in their lobby, independently of the actual prints. Also included are frame mounted lights.

We offer custom installation, crating and delivery upon request, with an additional charge determined per site.

Payment Terms: Due upon receipt. Project commences when payment is received for Public and Personal sets, or print right fee received for Grand Scale set.

Lead time: approximately 4-5 months for Public Scale or Private Scale prints. Grand Scale timeframes will be developed based on each individual installation.
